

Taharim Hasan Mim

Junior Full Stack Developer

mdtaharimmim1010@gmail.com | +88 01969018549 | Khulna, Bangladesh | [Linkedin](#) | [Github](#) | [Portfolio](#)

CAREER OBJECTIVE

Full-stack developer skilled in JavaScript, TypeScript, React, Next.js, Node.js, Express, PostgreSQL, and MongoDB. Shipped three production-deployed applications with role-based access control, JWT authentication, and integrated payment gateways (Stripe, SSLCommerz). Looking to bring that same ownership to a collaborative engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: HTML, CSS, Tailwind CSS, React.js, Next.js, Framer Motion, ShadCN

Backend: Node.js, Express.js, PostgreSQL, Prisma ORM, REST APIs, JWT, MongoDB

Tools & Deployment: Git, GitHub, VS Code, Firebase, Postman, Figma, Vercel, Netlify

Payments: Stripe, SSLCommerz, bKash

PROJECTS

GearUp — Sports & Outdoor Equipment Rental Platform

2026

[Live Link](#) | [Client Code](#) | [Server Code](#)

- Built a role-based rental system (Customer, Provider, Admin) with JWT authentication and separate permission-scoped workflows for each role.
- Integrated SSLCommerz for payment processing, including server-side payment validation and automatic rental-status updates on successful payment.
- Designed the full rental lifecycle — from booking through return — giving customers order control and providers self-service gear availability management.

Tech: TypeScript, Node.js, Express.js, PostgreSQL, Next.js, ShadCN, Prisma, JWT

EduGenix — LMS Platform

2025

[Live Link](#) | [Client Code](#) | [Server Code](#)

- Designed role-based access for students, teachers, and admins, including a teacher-application and course-approval workflow.
- Integrated payment processing and account authorization for course purchases.
- Built course browsing, purchase, and assignment-management flows with a focus on clear navigation.

Tech: JavaScript, Node.js, Express.js, MongoDB, JWT, React.js, Tailwind CSS, TanStack Query, Firebase, Vercel

Hotella — MERN Hotel Room Booking Platform

2025

[Live Link](#) | [Client Code](#) | [Server Code](#)

- Implemented room filtering by price, plus a streamlined booking flow from search to confirmation.
- Integrated Stripe for secure payment processing on room bookings.
- Built self-service reservation management so users can update or cancel bookings independently.

Tech: JavaScript, Node.js, Express.js, MongoDB, JWT, React.js, Tailwind CSS, Firebase, Vercel

EDUCATION

Bachelor of Science (B.Sc.) in Mathematics

2023 - Present

National University, Bangladesh

LANGUAGES

Bengali (Native) | English (Working Proficiency) | Hindi (Conversational)
